\$9.00 Cdn.

\$9.00

Applied Physiology's Nutritional Energy Reflex Point Chart

This page-sized laminated chart contains all the circuit locating points for nutritional deficiencies and excesses. Includes vitamins, minerals, proteins, digestive enzymes, toxic chemicals, and heavy metals. One side has a diagram of all the reflex points on the body with corresponding labels colour coded for ease of use. The reverse side lists all the information sorted by category and corresponding geographic description. These reflex points are based on original AK research of Dr. Ridler, with subsequent AK research confirmed by Applied Physiology research and material from Don Viney.

\$17.00 Cdn. Retail

\$17.00

Meridian Supplement/Nutrition Awareness Chart

by Delores Wiltse

This is a useful chart for quickly locating the recommended nutrition/supplement for the muscles / organs / glands on the 14 meridians of Touch for Health. Also lists foods high in that particular nutrition. The back of the chart lists: substances that interfere with absorption of nutrition; gives a brief discussion on the six stages of nutrition; itemizes the basic rules of food combining and rotation; plus a section on the full spectrum of foods required by our bodies each day. Great reference chart!

A creative flow chart depicting themes for the elements and ways to expand awareness. Set up well to scan. Unique.

\$15.50

\$15.50

PKP 5 Element Emotions Chart - 3 Sizes

Depicts the colorful five element circles containing the related meridian emotions and the associated emotions for Central and Governing meridians.

\$17.00 A4 Page Size

\$17.00–\$55.00

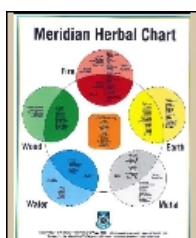

PKP Amygdala Emotions Chart

This chart lists amygdala related emotions. The amygdala (part of the limbic brain) has an important relationship to emotions, in particular, early emotions that have been taken on board independent of the spoken word. Balancing the amygdala provides a way of balancing early memories that are wordless and may involve emotional and illogical outbursts. Colourful.
