Emotion and Healing in the Energy Body

By Robert Henderson

A comprehensive guide to emotional blockages in the energy body and their physical manifestations

Explains how to interpret and work with energies released in massage and during yoga practice Detailing how these energies are drawn in by the chakras and distributed throughout the body by the meridians, the author explains how suffering acute emotional trauma or long-term stress causes negative energies to accumulate in the energy body much like fat deposits. Our physical body reacts to these energy blockages, leading to physical conditions such as closed hips, tight hamstrings, digestive distress, chronic pain, and persistent tension in areas like the shoulders. The author explores more than 30 specific physical ailments, providing the energetic origins of each condition, the exact location of the corresponding energy blockage, and which meridians, chakras, and points are affected. He covers sexual energy in depth, explaining how to handle repressed energy as it is released during yoga or massage.

Seed Sounds for Tuning the Chakras

By James D'Angelo, Ph.D.

Using the Sacred Alphabet--the universal sounds of all languages--sound-healing teacher James D'Angelo explores the intimate connections between vowel, consonant, and syllable combinations, each of the 7 chakras, and their corresponding psychological traits. He explains, for example, how the vowel sound "uh" connects to the root chakra and is found in such words as "support" and "trust," words deeply linked to the emotional character of this chakra. Revealing the voice as the master instrument for transformation--attested by the spiritual traditions that use chanting as an aid to enlightenment--he provides an extensive selection of vocal exercises to re-tune and purify each chakra and dissipate any related negative states as well as exercises that incorporate multiple chakras for general well-being. The accompanying 66-minute CD guides you through each exercise and the proper toning of each chakra's sounds.

In uniting these sacred seed sounds with their corresponding chakras and psychologies, the author shows how you can enhance the power of these syllables and purposefully harness them for healing, states of deep meditation, and spiritual development. By bringing you closer to the voice of the Absolute, your own voice can be the conduit to the blissful union the soul so deeply desires.
