#### Anatomy of Kinesiology Muscle Monitoring Level 4

by Greg Webb RMT. 4th of the DVD series. Focus is on pulling it all together while increasing your clinic skills. There is great value in evaluating all the 42+ muscles. Doing so sets the stage for significant change on many levels. Level 4 is designed to help you learn how to do this quickly and effectively. Learn advanced testing positions to your existing skills. Additional special tests for neck conditions, groin issues, as well as hamstrings, quadriceps, knee, calf and shoulder/neck issues.

5 Element Reactives. This protocol finally takes the guess work out of the Reactive Muscle identification and correction. Following the step-by-step approach simplifies this powerful correction for trauma and chronic imbalances. Approximately 80 minutes.
